

Net Sales by Product

Our composition of net sales by product is as shown in the graph.

A breakdown (net sales composition) of the Capacitor division, our largest business division, is as follows

Application Fields of Aluminum Electrolytic Capacitors

Flat-Screen TV	10-50 pcs
Personal Computer	10-60 pcs
Home Video Game Machine	10-30 pcs
Inverter Driven Air Conditioner	20-30 pcs
Automobile	50-250 pcs
Power Conditioner for PV Generation System for Home Use ...	30-50 pcs
Industrial robots	50-200 pcs

Nippon Chemi-Con Group sales largely break down into four divisions, which are **Capacitors**, **Mechanical parts and other parts**, **Capacitor materials** and **Other products**.

Capacitors

Net sales in FY2017: **¥120,596** million (90.4% of total sales)

Sales of industrial use large-sized aluminum electrolytic capacitors increased and sales of products for automotive electronics were generally favorable. In particular, for automotive applications, sales of high value-added products increased, including conductive polymer aluminum solid capacitors (below referred to as conductive polymer capacitors) and conductive polymer hybrid aluminum electrolytic capacitors (below referred to as hybrid capacitors). Major products in this division are as follows.

- Aluminum Electrolytic Capacitors, Conductive Polymer Capacitors, Hybrid Capacitors, Multilayer Ceramic Capacitors, Film Capacitors, Metal Oxide Varistors, Electric Double Layer Capacitors

Mechanical Parts and Other Parts

Net sales in FY2017: **¥3,208** million (2.4% of total sales)

CMOS camera modules used in devices such as drive recorders drove sales, resulting in a 15.1% year-on-year increase in revenue. Major products in this division are as follows.

- Amorphous Choke Coils, Dust Choke Coils, CMOS Camera Modules

Capacitor Materials

Net sales in FY2017: **¥7,125** million (5.4% of total sales)

Nippon Chemi-Con Group internally develops and manufactures materials used in our aluminum electrolytic capacitors. We also sell these materials to other capacitor manufacturers. In FY2017, sales increased thanks to increased demand for aluminum electrode foils. Major products in this division are as follows.

- Aluminum Electrode Foils, Sealing Rubbers

Other Products

Net sales in FY2017: **¥2,431** million (1.8% of total sales)

Revenues increased 24.8% year-on-year thanks to sales of silicon wafers and other resale products. Major products in this division are as follows.

- Silicon Wafers, Reclaim Wafers
